Collaborative Systems Group Inc

Booth 14

CSG, exclusive provider of C-Forms — a mobile data capture solution targeted at the healthcare industry offers unique capabilities in the medical field.

C-Forms electronic medical records solutions remove the burden of cumbersome paper filing systems whilst preserving traditional methods preferred by practitioners such as support for handwritten prescriptions.

C-Forms supports high efficiency and high productivity technologies in the field such as barcode and RFID scanning, GPS and GIS and fully integrates data across the enterprise into mainstream medical applications and databases.

Fuld & Company

Booth 7

Fuld & Company, the global leader in CI, delivers customized research and analysis on markets, competitors, suppliers and customers. Our findings, recommendations, and scenario analysis enable clients to make more informed judgments related to M&A, new products, market entry, sales tactics, distribution, cost reduction, restructuring, supply chain management, employee recruitment/retention, and a variety of critical business decisions. Our war game simulations enable clients to act quickly and decisively on competitive issues of high strategic importance. For more information, contact us at 617-492-5900 or www.fuld.com.

Health IT Certification

Booth 2

Health IT Certification, LLC offers comprehensive HIT, EHR, and HIE training programs ranging from e-learning solutions, regional in-person training programs, one-day preconference training programs associated with national and regional conferences, and in-house customized training, as well as audioconferences. Three training programs are offered: Health Information Technology (HIT), Electronic Health Records (EHR) and Health Information Exchange (HIE). Health IT Certification has trained more than 1,700 individuals and its three professional certifications are widely recognized throughout the Health Care industry. See www.healthitcertification.com.

Humetrix

Booth 6

Humetrix has been pioneering the development of innovative consumer-centered information technology solutions over the past 25 years which have been deployed around the world. In healthcare, Humetrix' core patented technology for automated and secure access to individual on-line records (whether EHRs or PHRs) using smart portable devices (USB flash devices, smart and flash cards, or web-enabled phones) offers an immediately implementable, patient-centered and individually controlled, connectivity and interoperability solution to today's fragmented health care environment.

Humetrix, Inc. is based in San Diego, California; www.humetrix.com

Ingenix

Booth 15

Ingenix unites the brightest minds to transform organizations and improve health care through information and technology. We partner with more than 250,000 clients worldwide to solve the most important problems in health care. Learn more at ingenix.com.
