

Conference Sponsors

We gratefully acknowledge the following Sponsors for their support in helping to make this conference possible.

The eHealth Initiative, www.eHealthInitiative.org, and the Foundation for eHealth Initiative are independent, non-profit affiliated organizations whose missions are the same: to drive improvement in the quality, safety, and efficiency of healthcare through information and information technology. Both organizations are focused on engaging multiple and diverse stakeholders—including hospitals and other healthcare organizations, clinician groups, consumer and patient groups, employers and purchasers, health plans, healthcare information technology organizations, manufacturers, public health agencies, academic and research institutions, and public sector stakeholders—to define and then implement specific actions that will address the quality, safety and efficiency challenges of our healthcare system through the use of interoperable information technology.

The MIT Center for Digital Business, <http://digital.mit.edu>, was created by the MIT Sloan School of Management to provide leadership for faculty, students, and industry interested in technology-enabled business. Developments in this field are transforming the economy, while creating new opportunities and challenges. The Center's mission is to be the leading academic source of innovation in management theory and practice for Digital Business. The CDB has established a large-scale research program, involving over 50 faculty, participating in 60 projects, and funded by generous industry support. The Center for Digital Business builds on over 30 years of MIT research on the digital revolution in business.
